Re: Request for Revival, and
Request for Continued Examination
10/683,565

Dear Sir/Madam:

Enclosed please find forms requesting Revival and Continued Examination of the above referenced patent application. Also enclosed are the required fees including check #1100 in the amount of $395.00 for the Request for Continued Examination and check #1099 in the amount of $250.00 for the Request for Revival.

Our request is due to the nature of the last Office Action we received dated 08/01/2007. In that Office Action it was noted that our prior response "raised new issues that would require further examination or search". Specifically, it was noted that the proposed limitations regarding pH were new limitations which had not been previously considered or researched. We are requesting revival so that our prior arguments, which the examiner noted raised issues requiring further examination or search, can receive proper consideration. Since our position is unchanged since the prior submission, I have attached a copy of the arguments submitted previously on 05/07/2007 for ease of reference.

I appreciate your consideration.

Sincerely,

David Oliver
Director of Regulatory Affairs
